

DID YOU KNOW?

Standard Miether products are manufactured on-site at our Westfield, Indiana (USA) manufacturing facility with one goal in mind: **Maximizing your bearing investment and minimizing costly downtime.**

Two Great Companies Under One Roof!

When it comes to specialty bearing housings, seals and accessories, Standard Miether has been leading the industry in quality and value for **over 75 years**. The organization supports OEM and MRO requirements for rotating equipment in the bearing, steel, rail, oil and gas, aerospace, mining, chemical, machine tool, agricultural, heavy duty and off-road industries with the highest quality bearing accessories, pillow blocks and precision machined components.

Our products are manufactured with one goal in mind: maximizing your bearing investment and minimizing costly downtime. We've spent years working with customers in a variety of industries to solve application challenges, increase uptime and help improve both productivity and profitability.

BEARING PRODUCTS

standard-miether.com

SAVE THE BEARING. START WITH THE HOUSING.

Standard Miether is one of North America's largest manufacturer of bearing accessories and precision turned components. Our business consists of manufacturing pillow blocks, bearing accessories and specialized contract machining.

For over 70 years, we have offered a full line of locknuts, washers, bearing accessories made to American Manufacturers Association (ABMA) specifications in both inch and metric, along with split pillow block housings.

Benefit from the standard excellence Standard Miether offers:

- ⚙️ **Energy** – facilities that face a multitude of challenges such as the destructive effects of temperature extremes, humidity/ moisture, dust, mud, oil, solvents, and the potentially corrosive effects of chemicals.
- ⚙️ **Heavy Mobile Structures** – widely used in the heavy movable structure industry for their exceptional quality and reliability that improves operational performance.
- ⚙️ **Mining** – facilities connected with the extraction and processing of these products are typically found in remote locations, where extreme climate conditions, dust, debris, and other contaminants can seriously hinder bearing performance.
- ⚙️ **Pulp & Paper** – exposure to a wide range of temperature and humidity conditions, contaminants, and a variety of torque and loading situations.
- ⚙️ **Recycling & Shredding** – operations that require bearing housings and bearing accessories tough enough to withstand the most punishing operating conditions that are subject to severe dust and contamination, high shock load conditions, varying rotational speeds, elevated internal rotor working temperatures, and exposure to an assortment of external climate conditions.
- ⚙️ **Steel Production** – find Standard Miether bearing housings, seals, and accessories at work in a variety of steel manufacturing processes, including iron conversion, steel conversion, casting, primary rolling, and finish rolling.

INCLUDE STANDARD MIETHER QUALITY INTO YOUR BUSINESS- WHATEVER THE APPLICATION.

Pillow Blocks

Looking for protection against impact loads and minimizing radial loading problems experienced with conventional split housings? Standard Miether's base-mounted Pillow Blocks are for you! Our pillow blocks provide maximum protection against impact loads and minimize radial loading problems experienced with conventional split housings.

Accessories

At Standard Miether, we understand that having the right accessories at the right time is key to maximizing field uptime. We've spent years working in the field with our customers solving their installation and maintenance challenges. As a result, we offer a wide range of accessory products with unique features that minimize downtime and make the most of your bearing investment.

- ⚙️ Tapered Adapter Assemblies
- ⚙️ Auxiliary Accessories
- ⚙️ Seal Rings
- ⚙️ Spherical Roller Bearings
- ⚙️ Stabilizing Rings

EXCELLENCE MADE STANDARD.

Contract Machining

Standard Miether's ability to machine products more than 62" (1575mm) in diameter is second to none. Our combination of CNC turning, milling machines and complimentary secondary equipment allow us to respond to virtually any need you may have. Our in-house engineering experts have the experience and know-how to work one-on-one with you and to arrive at the best solution. We are uniquely positioned to fulfill the needs of OEM customers.

Not sure how to make your part? Our experts will guide you to a solution, no matter the material; ductile iron, cast steel, stainless steel, aluminum, when it comes to precision machining, let Standard Miether be the only solution you need.
